

MSI - Your Superior Source for ISO/AS Consulting, Training and Software

Rapidly Multiplying Customers' Value. Management Systems International (MSI) comprehensively provides consulting, training and software on international standards to power your business forward through certification and continued excellence.

Complete Consulting

We provide industry-leading consulting services on international standards while implementing or managing your quality, environmental, or health & safety management system. In true partnership with you, our expert consultants leverage years of experience with ISO and AS standards, advanced tools and highly effective procedures to offer:

- » Turnkey implementation using our SurePath® methodology
- » Gap Analysis
- » Environmental issue identification
- » Develop, review and transition procedures to meet international standards, as appropriate for your organization
- » Internal audits
- » Ongoing maintenance using our SureResults™ methodology
- » Learn more about MSI's SureResults proactive maintenance program in our SureResults for data sheet
- » Numerous other capabilities

As a result, you valuably:

- » Streamline systems, processes and documentation
- » Eliminate operational gaps, redundancy and waste
- » Improve operational efficiency, performance and access tools to further your competitive edge
- » Deliver consistently top-quality and environmentally health conscious products and services
- » Improve customer confidence and satisfaction

About MSI:

As a world leading ISO consulting firm Management Systems International offers:

- » Experience and knowledge that utilizes our 21+ years in business, and presence at over 200 registration audits
- » The most comprehensive management system implementation approach in the industry
- » A secure facility to protect our client's proprietary information
- » A superior reputation: MSI continues to maintain an 100% success record
- » Commitment to dependable Customer Service

BENEFITS

Increase the results of your internal audits by partnering with MSI to perform your internal audits, whether they're for ISO 9001, ISO 13485, ISO 14001, ISO 45001 or AS 9100 procedures, SOPs, processes, and/or control plans. Power your business forward by taking advantage of this program.

SOFTWARE SOLUTIONS

Using proven web-based software management solutions, we can substantially simplify your workload, workflow and improve your day to day business operations.

ISO 9001, ISO 13485 and AS 9100 -

Quality Management Systems

- » Specifies requirements for implementing a Quality Management System, addressing sales, design, purchasing, hiring, production and other processes.
- » Ensures quality products and services that consistently fulfill customer, legal and regulatory requirements while enhancing customer confidence.

ISO 14001 and ISO 45001 -

Environmental + Health & Safety Management Systems

- » Specifies requirements for implementing an Environmental or Health and Safety Management System, identifying and addressing environmental footprint and health and safety programs
- » Enables environmental or health and safety policy and objective development considering customer, legal and other requirements, and ensures compliance with this policy
