Plastic and Metal Manufacturing Experts

Welcome to Directed MFG, Inc. (DMI), a unique rapid manufacturing company with a very specific mission and purpose: to deliver quality production additively manufactured parts, components and assemblies, in both plastics and metals, through our AS9100B quality management system. Using layer-built direct digital manufacturing processes, such as plastic laser sintering and direct metal laser sintering (DMLS), we are able to effectively streamline the manufacturing of on-flight parts, tools and patterns.

As demand for this metal laser sintering technology increases, **Directed MFG** continues to lead the **emerging industry** by being earnest in our efforts to **educate and train** our loyal customers.

OUR COMPANY

The business of General Atomics Aeronautical Systems, Inc. (GA-ASI) is the development of transformational technologies that deliver paradigm-changing results. An affiliate of privately-held General Atomics, GA-ASI is a world leader in proven, reliable Unmanned Aircraft Systems (UAS) and tactical reconnaissance radars, as well as advanced high-resolution surveillance systems. The company is dedicated to providing long-endurance, mission-capable aircraft with the integrated sensor and data link systems required to deliver persistent situational awareness and rapid strike capabilities. [Click here](#) to download our company brochure.

 The company's **Aircraft Systems Group** designs and manufactures game-changing, life-saving unmanned aircraft systems, including the ground stations that control them and provides pilot training and support services for field operations. Revolutionizing aviation by expanding the capabilities of UAS, the group develops innovative high-tech solutions that have produced an ever-growing line of versatile, reliable, cost-effective, and combat-proven aircraft.

 GA-ASI's **Reconnaissance Systems Group** manufactures state-of-the-art airborne sensor packages that are specially designed to enhance the Intelligence, Surveillance and Reconnaissance (ISR) capability of both manned and Unmanned Aircraft Systems significantly. Developing, producing, and integrating highly sophisticated sensors, sensor control systems, lasers, and data links, this group provides total situational awareness to military and civil decision-makers. Need Parts Quickly?

The most comprehensive inventory of retaining rings and disc springs in the world.

When the Solution is a Retaining Ring / Circlip, Belleville Disc Spring, Pin or 1/4-turn Fastener, you need a partner you can count on, with 50+ years experience engineering, manufacturing and servicing those with the most critical applications.

Your applications need American Ring & Tool.

Your supply chain needs American Ring & Tool.

We Offer Solutions.

To the uninitiated, our products often appear as simple things. A smaller component, relative to the size of the completed assembly. But to those who know better, no part is more critical. So, when you need a replacement for a rebuild, a part for a new application, or perhaps help with a re-design, who do YOU rely upon?

For more than five decades, spanning three generations, the family of experts at American Ring & Tool have set and repeatedly raised the bar in this industry. Our TS16949, ISO9001 and AS9120 Certifications tell a portion of the story of quality that defines us. Our customers, however, tell the rest of the story, as they continue to return, time and again, for consistently outstanding service, competitive pricing, on-time delivery and product knowledge.

Retaining Rings, Snap Rings, Circlips, Spiral Rings: American Ring & Tool has the most comprehensive selection of retaining rings in the world. We offer the same excellent quality

Our Customer Service Representatives are waiting to assist you!

In everything we do, we believe in challenging the status quo. We believe in thinking differently.

The way we challenge the system is supplying products of the highest quality, in the quickest amount of time, and are easily accessible for even the most difficult applications.

We just happen to be the best solution.

We are ISO 9001: 2008 and AS 9120 certified

Our Mission is to bring top of the line products to you, our valued customer to achieve goals that are mutually beneficial.

We are exporting material to China, South Africa, UAE, Brazil, Canada, Europe, Australia, India, and Mexico. Offering export packing, and export documentation on a FOB or Door to Door service.

An approved source for Lockheed Aeronautics and Boeing, Southern California Metals is a supplier of aerospace metals, chemicals and parts for material requirements. Located in the heart of Los Angeles, close to the international Airport and the majority of freight forwarders. Southern California Metals takes pride in our versatility and excellent customer support. **We can save you money! We can increase your revenues by helping you build your projects faster!** With great turn-around times, fully traceable material including mill certification on all aerospace materials. We offer a complete package, reduced shipping costs, reliable delivery times and a customer service agent that is working with you. Southern California Metals provides a complete line of the finest standard and engineered parts for aerospace and manufacturing industries. As a worldwide industrial distributor of quality specialty parts, we have an inventory of products available for immediate shipment.

We are an ISO 9001:2008 and AS9120 certified company!

We are also a (WBE) (SBE) and (UDBE) registered. We are also registered with CCR using CAGE code (31NG8).

Welcome...

"Good Fences Make Good Neighbors." - Robert Frost, Poet

RD Systems Inc. has been assisting businesses with solutions to their security problems since 1971.

We have earned our reputation for quality by providing our clients with a **wide range of solutions**, always based on their individual needs.

Our expert consultation services will help to determine the best method of implementing and maintaining your **security needs**.

RD Systems, Inc. has always been dedicated to continuous and complete improvement in quality and service to our customers. Certification to **ISO9001** serves as a major milestone to this end. Certification means we now have an internationally-recognized quality management system.

John Russell

Fleet Pride

The screenshot shows the FleetPride website homepage. At the top, there is a navigation bar with the text "CORPORATE / FLEETPRIDE / FLEETCARE / FPONLINE" and the FleetPride logo, which includes the text "FleetPride" in a stylized font and "TRUCK & TRAILER PARTS" below it. Below the navigation bar, there is a horizontal menu with links: "Find Branch | Find Part | Parts Guide | Brands & Vendors | MSDS | Warranty | Repair & Maintenance". The main content area features a large image of a warehouse and a service center. The warehouse image has a red overlay with the text "FLEETPRIDE". The service center image has a red overlay with the text "Heavy Duty Truck and Trailer Parts". Below the images, there is a paragraph of text: "FleetPride is America's premier nationwide supplier of heavy-duty truck and trailer parts operating 220 locations in 40 states. We carry a full line of nationally-recognized, brand name parts, as well as an assortment of exclusive-brand parts. FleetPride offers in-house remanufactured products such as brake shoes and driveline components and provides truck and trailer repair services at many locations. Availability, Value and Expertise. **COUNT ON US.**" At the bottom of the page, there is a footer with links: "Careers | Co Store | Legal | Forms | Contact Us | Employee Login | Pay Your Bill".

Sodexo

The screenshot shows the Sodexo website homepage. At the top left is the Sodexo logo. To its right is a search bar with the text "World Leader in Quality of Daily Life Solutions". Below the search bar is a navigation menu with links: Home, About us, News Room, Careers, Our Environments, Corporate Citizenship, Investor Relations, Our Roles, Sodexo Blog, and a font size selector (A-A+). A large banner in the center features a blue circle with "the Reference Document" and a right-pointing arrow, followed by the text "ACCESS THE FISCAL 2011 REPORTS ONLINE". To the right of this banner is a graphic of a notepad with the text "Making every day a better day". Below the banner are three main content columns. The left column is titled "Onsite Service Solutions" and lists "Client Segments" such as Hospitals, Senior Living, Colleges and Universities, School Districts, Independent Schools, Corporate Environments, Federal Government, Military Bases, Remote Sites, Conference Centers, and Leisure & Entertainment. It also lists "Our Expertise" including Food Services, Facilities Management, Business Strategy, and Motivation Solutions. The middle column is titled "QUALITY of Daily Life Solutions." and contains three paragraphs of text. The right column is titled "News & Commentary" and lists several articles. At the bottom of the page, there is a "Print page" button and a footer with links for "Contact Us", "Sodexo becomes Sodexo", "Sodexo Worldwide", "Accessibility", "Site Map", and "Legal Mentions".

HISTORY CAPABILITIES CONTACT US CLIENT LOG-IN FILE TRANSFER

CAPABILITIES

>> Overview Services Equipment List File Preparation

We are equipped to deal with most printing projects, large or small. We specialize in multi-color projects that require careful attention to detail. Around-the-clock staffing ensures we can meet the most demanding schedule requirements. Our greatest strength is that our employees all share a commitment to exceptional customer service.

If you'd like to see what kind of equipment we use, click on the link above. Everything is state-of-the-art: electronic prepress, digital proofing, and a wide variety of sheet-fed press equipment in sizes up to 40". Our facility also features complete bindery and shipping departments.

The fact that our Quality Management System is registered to the ISO 9001 standard ([Certificate # 0054343](#)) might not be as exciting as all that high-tech gear, but it's just as important to the quality of our work, if not more so. Only systems that meet the very stringent requirements set by the International Organization for Standardization can earn registration. Very few printers (less than one-percent) have achieved this distinction.

Acxiom Corporation

The screenshot shows the Acxiom Corporation website homepage. At the top, there is a blue navigation bar with the Acxiom logo and menu items: Marketing Services, Information Management Services, Risk Mitigation Solutions, and Ideas & Innovation. A search bar is also present. The main content area features a large banner with the text "SUCCESS. 1% INSPIRATION, 99% OPTIMIZATION" and "LEARN, ADJUST AND MAXIMIZE CUSTOMER VALUE." Below this is a call-to-action button that says "Optimize your marketing mix". To the right of the banner is an illustration of three cardboard boxes on a conveyor belt, with a green checkmark being placed into the last box. Below the banner are three service categories: Marketing Services, Information Management, and Risk Mitigation Solutions, each with a brief description and a "See offerings" or "See services" link. At the bottom, there are sections for "IDEAS & INNOVATION" (with a "Redefining the Funnel" article), "NEWS" (with an article about "Acxiom to Discuss Third Quarter Earnings"), and "TWITTER" (with a tweet about email platforms). The footer contains copyright information for 2012 Acxiom, navigation links, and social media icons for LinkedIn, Facebook, and Twitter.

Entropic Communications

The screenshot shows the Entropic Communications website homepage. At the top left is the Entropic Communications logo with the tagline "Enabling Connected Home Entertainment™". To the right of the logo is a search bar and a navigation menu with links for Home, Contact, Fast Street, and Site Map. Below the logo is a secondary navigation menu with links for COMPANY, TECHNOLOGY, PRODUCTS, INVESTORS, PRESS, and CAREERS. The main content area is divided into several sections:

- Recent Press Releases:** A list of three press releases with dates and titles, each with a "more info" link and a "schedule a meeting" link.
- Events:** A list of three events with dates, locations, and "more info" and "schedule a meeting" links.
- home networking:** A section with a photo of a woman looking at a laptop and text describing a standard-based robust digital entertainment network.
- db's outdoor unit:** A section with a photo of a satellite dish and text describing a robust digital entertainment network.
- broadband access:** A section with a photo of a man and a woman looking at a laptop and text describing a robust digital entertainment network.
- silicon tuners:** A section with a photo of a woman holding a baby and text describing a robust digital entertainment network.
- CONNECTED HOME ENTERTAINMENT:** A section with text describing Entropic Communications' technology and a video player showing a MoCA chip.

At the bottom of the page is a footer with links for Home, Careers, Technology, Evaluate, Investor, Press, Contact and copyright information for 2009 Entropic Communications.
